Wednesday, July 7, 2010  
Thursday, July 8, 2010  
Friday, July 9, 2010  
Wednesday, July 14, 2010  
Thursday, July 15, 2010  
Friday, July 16, 2010  
8:30 am - 3:30 pm

Presenter(s): Sally Walker

Cost: \$200 - Refundable Deposit

\$200 - Lindenwood University Credit

The Illinois State Board of Education invites ALL classroom teachers to deepen their understanding of how to teach and reach gifted and talented students. This gifted seminar is a 45 hour course of study replacing the former "Gifted Education Institute." This training is a combination of 36 hours of face-to-face participation and 9 hours of independent work using a USB drive which will be provided to each participant. The training consists of the following modules: Overview and Perspectives, Knowing the Gifted, Differentiation, and Gifted Models for the classroom. Two books will be given to participants: "Achieving Excellence Educating the Gifted and Talented" by Frances Karnes & Kristen Stephens and "Differentiation: Simplified, Realistic, and Effective" by Bertie Kingore. LEARN HOW TO MEET THE NEEDS OF ALL STUDENTS IN YOUR CLASSROOM. \*\*\* A \$200 deposit is required at registration to confirm your seat. If the deposit is not received your seat may be released. If the workshop is taken for graduate credit the deposit will be used to cover that cost. For participants who do not wish to take the course for credit the deposit will be returned after completion of all course requirements. Upon completion of all course requirements participants will receive a \$250 stipend. Note: Private and parochial school teachers who hold a teaching certificate are eligible to enroll in the Gifted Education Seminar. Please contact the KIDS office for further information on the enrollment criteria and registration procedure.

**[G] Multiplication with Meaning**  
Thursday, July 8, 2010 - Friday, July 9, 2010  
8:15 am - 3:30 pm  
Presenter(s): John Salzer  
Cost: \$130 - Registration Fee  
\$240 - Registration Fee with Graduate Credit  
Join with other elementary educators to explore the concept of multiplication. Topics will include the brain-based research that helps to explain why students who have no trouble adding have difficulty multiplying; models that can be used to demonstrate the meaning of multiplication; methods for learning multiplication facts other than rote memorization; and an in-depth look at why our traditional algorithm for multiplying multi-digit number works.

**[W] Phonemic Awareness: Day 1**  
Thursday, July 8, 2010  
8:30 am - 4:00 pm  
Presenter(s): Michael Heggerty  
Cost: \$20  
Participants in this session will study the research which supports the importance of teaching these important skills for early readers. They will learn the scope and sequence of the skills, as well as ways to teach phonemic awareness. They will study sight word vocabulary, letter/sound correspondence skills as well as structural analysis skills. Participants will examine the relationship between all of these skills and how an effective word identification program can support reading and writing.

**[G] Communication Strategies for Students with Complex Needs**  
Monday, July 12, 2010 - Tuesday, July 13, 2010  
8:30 am - 4:00 pm  
Presenter(s): Linda Burkhart  
Cost: \$240 - Registration fee  
\$350 - Registration Fee with Graduate Credit  
Designed for teachers who work with children who have physical disabilities, multiple disabilities, sensory processing challenges, limited social interaction skills, this course will focus on Pragmatic Organization Dynamic Display (PODD) Communication Books which offer generic templates designed to enable genuine communication for children in all daily environments including conversations, telling stories, expressing opinions and asking questions.  
This course will explore strategies for creating multi-modal communication communities providing receptive models and expressive opportunities for development of language for children with cognitive limitations and learning difficulties. The focus will be on using "Light Tech" multi-page communication books and strategies, including sequenced step talkers, picture schedules, and activity displays. \*\*\*Participants from Rockford Public School District 205 must contact Andrea Miller at 815-966-3198 before registering.\*\*\*

**[G] Learn How to Learn with Technology First!**

Monday, July 12, 2010 - Friday, July 16, 2010  
8:00 am - 4:30 pm  
Presenter(s): Scott Meech  
Cost: None - Registration Fee  
None - Registration Fee with Graduate Credit

Learn how to integrate technology in the classroom better, learn how to learn with technology first! Workshop attendees will walk through a sequential process of learning how to learn with technology that will expand their own personal learning strategies, their use of technology in the classroom, and how technology can improve education as a whole. We will explore several online applications, experiment with mobile learning applications, and perhaps look at some new technologies that are not within the mainstream market yet. Our overall goal is to break away from the project oriented technology integration approach into a fresh new approach focused solely on learning with technology!

**[I] Induction for the 21st Century Educator - Mentoring Year 2**

Wednesday, July 14, 2010 - Thursday, July 15, 2010

8:30 am - 3:30 pm

Presenter(s): Kris Paulsgrove & Martha Kaiser

Cost: None

Districts with an ISBE approved 2 year mentoring program must provide mentors who have been trained in the principles and methods of effective mentoring. Mentoring Year 2 is the second of 2 required courses in the Induction for the 21st Century Educator mentor program model. Participants will become familiar with the components of the coaching cycle, including formative assessment and analyzing student work. Participants must have completed Year 1: Mentoring 101.

**[G] Offline Teachers and Online Students: Thinking Outside the Book**

Thursday, July 15, 2010 - Friday, July 16, 2010

8:30 am - 4:00 pm

Presenter(s): Marilee Sprenger

Cost: \$200 - Registration Fee

\$310 - Registration Fee with Graduate Credit

Many of our students have grown up "digital," while many of our teachers are struggling to catch up and keep up. In this session you will learn how to meet the needs of the 21st century student. Learn at least twelve ways to teach to the digital brain and begin to think outside the book. New studies by the Kaiser Foundation offer educators information on what media is appealing to our students. Approaching content in diverse ways will aid in differentiation practices that lead to higher student achievement.

**[G] Biodiversity**

Monday, July 19, 2010 - Friday, July 23, 2010

8:15 am - 4:45 pm

Presenter(s): William Donato / Gary Swick

Cost: None - Registration Fee

None - Registration Fee with Graduate Credit

This Science education course introduces the concept of biodiversity and its importance in maintaining the stability of an ecosystem. The course reviews the earth's current biodiversity and then describes the threats to biodiversity, such as global warming, invasive species and habitat destruction. Teachers will use techniques developed by Illinois Department of Natural Resources scientists to measure the biodiversity of forests, wetlands, prairies, soils and the urban environment. Teachers will be outside each day sampling these ecosystems. Curricular activities developed by teachers in the PLAN-IT Earth Curriculum, Biodiversity Basics, the Wonder of Wetlands and the National Science Teachers Invasive Ecology Curriculum will be used. This class may count toward science endorsement, subject to transcript review by ISBE.

**[G] History of Mathematical Thought**

Monday, July 19, 2010 - Friday, July 23, 2010

8:15 am - 4:45 pm

Presenter(s): John Salzer  
Cost: None - Registration Fee  
None - Registration Fee with Graduate Credit

This interactive course is designed for anyone who would like to have a better relationship with or understanding of mathematical concepts. We will trace the development of mathematical thought from pre-civilization through the present. This course will focus primarily on early mathematics (non-Eurpoean), but key points of the last 400 years will also be addressed. We will seek to understand mathematics as a human interface for natural phenomenon, to approach math with a child's open frame of reference, and to find appropriate uses for history of mathematics content in the classroom. Prerequisite: comfort with learning or relearning algebraic and geometric concepts." This course may count toward a Math endorsement, subject to transcript review by ISBE.

**[G] Phonemic Awareness for Your Classroom: Grades K-1**

Monday, July 19, 2010 - Friday, July 23, 2010  
8:30 am - 5:00 pm  
Presenter(s): Peggy Davidson / Ruth Plowman  
Cost: \$100 - Registration Fees  
\$410 - Registration Fee with Graduate Credit

This course will allow teachers to explore and develop activities for the first five levels of phonemic awareness. Fourteen specific skills will be shared and discussed in depth. Time will be allowed for participants to create and take home some of the activities that will be demonstrated by the instructors. As a result of this course, the participant will:

- Be able to define phonemic awareness.
- Be able to explain why and how phonemic awareness works.
- Be able to identify the five levels of phonemic awareness.
- Be able to demonstrate knowledge of the timeline for mastery of specific phonemic awareness skills.
- Be able to integrate differentiated instruction.
- Be able to distinguish between center rotations and independent centers.
- Be able to apply organizational skills to help achieve a successful phonemic awareness program.
- Be able to incorporate into their lessons the appropriate phonemic awareness skills for whole group, center, and differentiated instruction.

**[G] Strategies for Success in Classroom Management**

Monday, July 19, 2010 - Friday, July 23, 2010  
8:30 am - 5:00 pm  
Presenter(s): Rich Gurnett / Heather McIlwain  
Cost: \$350 - Registration Fee  
\$660 - Registration Fee with Graduate Credit

Effective teachers know that the number one factor determining student learning is classroom management using a proactive approach. Find out how to foster student involvement and cooperation in all classroom activities, while establishing a productive working environment. Participants will: be able to prepare the climate for effective classroom management; be able to recognize and implement effective and "best" practices in teaching; learn brain compatible strategies for helping students learn more effectively; be able to establish effective student rapport and cooperation. All teachers will benefit from the brain based research and classroom tested activities.

**[G] Reflections on Learning**  
Monday, July 26, 2010 - Thursday, July 29, 2010  
8:30 am - 4:00 pm  
Presenter(s): Elizabeth Hand / Cathy Wilson  
Cost: \$330 - Registration Fee  
\$540 - Registration Fee with Graduate Credit

"Reflections on Learning" will give teachers the opportunity to network with peers and reflect on how students learn. In a series of four summer sessions, the class will help teachers look at the learning styles of their students and implement strategies to help students be more effective in the classroom. By investigating the Illinois Professional Teaching Standards and applying them to how students learn most effectively, teachers will look to improve their instructional delivery by reflective activities, readings, and discussion with other teachers.

Participants may pair "Reflections on Learning" (2 credit hours) with "Reflections on Teaching" (2 credit hours), to meet the 4 credit hour Self Assessment of the Teaching Practice option for certificate renewal. Both courses must be taken for college credit in the same renewal cycle. Approval is pending for this option.

Tuesday, July 27, 2010  
Wednesday, July 28, 2010  
Tuesday, August 10, 2010  
8:30 am - 1:30 pm  
Presenter(s): Liza Campbell  
Cost: \$200 - Refundable Deposit  
\$200 - Lindenwood University Credit

The Illinois State Board of Education invites ALL classroom teachers to deepen their understanding of how to teach and reach gifted and talented students. This gifted seminar is a 45 hour course of study replacing the former "Gifted Education Institute." This training is a combination of 15 hours of face-to-face participation and 30 hours of independent work using a USB drive which will be provided to each participant. The training consists of the following modules: Overview and Perspectives, Knowing the Gifted, Differentiation, and Gifted Models for the classroom. Two books will be given to participants: "Achieving Excellence Educating the Gifted and Talented" by Frances Karnes & Kristen Stephens and "Differentiation: Simplified, Realistic, and Effective" Bertie Kingore. LEARN HOW TO MEET THE NEEDS OF ALL STUDENTS IN YOUR CLASSROOM\*\*\* A \$200 deposit is required at registration to confirm your seat. If the deposit is not received your seat may be released. If the workshop is taken for graduate credit the deposit will be used to cover that cost. For participants who do not wish to take the course for credit the deposit will be returned after completion of all course requirements. Upon completion of all course requirements participants will receive a \$250 stipend. Note: Private and parochial school teachers who hold a teaching certificate are eligible to enroll in the Gifted Education Seminar. Please contact the KIDS office for further information on the enrollment criteria and registration procedure.

Monday, August 2, 2010 - Tuesday, August 3, 2010  
8:30 am - 4:00 pm  
Presenter(s): Leslie Haney / Erin Simonovich  
Cost: \$150 - Registration Fee  
\$260 - Registration Fee with Graduate Credit  
Current research indicates that Autism Spectrum Disorder (ASD) prevalence affects approximately an average of 1 child in every 110(1 in 80 boys). Educators are more concerned than ever with the increased number of students with autism in our schools today. This course is designed for elementary and secondary educators interested in learning how to utilize effective strategies in teaching children with autism. Participants will get hands on experience in the areas of communication, social skills, sensory integration, visual supports, adapting and modifying curriculum

Participants in this workshop will be introduced to the components of a balanced literacy program that will allow you to differentiate instruction to meet the needs of all of your students. This academy will center around the following components: phonics and word study, fluency, vocabulary, and comprehension. Activities will be shared that will help you to model, guide and reinforce all students as you provide a strong classroom curriculum for the Tier I students (Response to Intervention model). Strategies and interventions for the Tier II and Tier III students will also be shared. Teachers will learn where to apply strategies and how to engage ALL students to become independent readers and writers. Participants will receive copies of two textbooks, "Art of Teaching Reading" by Lucy Calkins and "On Solid Ground" by Sharon Taberski.

**[ ] Induction for the 21st Century Educator - Mentoring 101**  
Wednesday, August 4, 2010 - Thursday, August 5, 2010  
8:30 am - 3:30 pm  
Presenter(s): Kris Paulsgrove & Martha Kaiser  
Cost: None

Districts with an ISBE approved 2 year mentoring program must provide mentors who have been trained in the principles and methods of effective mentoring. Mentoring 101 is the first of 2 courses in the Induction for the 21st Century Educator mentor program model. Participants in this course must be new mentors who have not completed Year 1 training. Year 2: The Coaching Cycle will be offered at a later date. The purpose of the training is to examine the rate of mentor/coach/support provider of beginning teachers and the strategies for making that support as effective as possible.

**[W] Book Study: "A Whole New Mind" by Daniel Pink**  
Tuesday, August 10, 2010  
9:00 am - 11:00 am  
Presenter(s): Jennifer Wood  
Cost: \$15 - Registration Fee  
None - Includes book

Lawyers. Accountants. Computer programmers. That's what our parents encouraged us to become when we grew up. But Mom and Dad were wrong. The future belongs to a very different kind of person with a very different kind of mind. The era of "left brain" dominance, and the Information Age that it engendered, is giving way to a new world in which "right brain" qualities - inventiveness, empathy, meaning - predominate. That's the argument at the center of this provocative and original book, which uses the two sides of our brains as a metaphor for understanding the contours of our times.

In this insightful and entertaining book, Daniel H. Pink offers a fresh look at what it takes to excel. "A Whole New Mind" reveals the six essential aptitudes on which professional success and personal fulfillment now depend, and includes a series of hands-on exercises culled from experts around the world to help readers sharpen the necessary abilities. This book will change not only how we see the world but how we experience it as well.

This KIDS group discussion will look further into what this book's message means for learning, teachers, classrooms & for "our" kids coming of age in a changing world. The book will be mailed to your home 2 weeks prior to the class. Registration fee includes the cost of the book.

**[W] Effective Literacy Coaching**  
Wednesday, August 11, 2010 - Thursday, August 12, 2010  
8:30 am - 3:30 pm  
Presenter(s): Cathy A. Toll  
Cost: \$60

Cathy Toll demonstrates what effective literacy coaching looks like through key questions, theoretical and practical rationales, copy-ready masters, and vignettes of real-life coaching conversations. Participants will cover minimizing the negative impact of mandated classroom observations and separating coaching from supervising. This is the ideal workshop for elementary literacy coaches and those administrators and lead teachers who support their work.

**[A] School Finance Made Easy**  
Thursday, November 4, 2010  
8:30 am - 3:30 pm  
Presenter(s): Robert Madonia  
Cost: \$130

There are two things that a school community is concerned about - their children and their money. With principals, assistant principals, department chairs, athletic directors and central office personnel realizing that the trend is to site-based fiscal management, they need to understand school finance in a way that is simple and easy to understand. Soon managing line items in the budget that pertain to an administrator's area of responsibility will be part of your job description. With this in mind, "School Finance Made Easy" is the program for you. This enjoyable hands on academy will result in understanding school finance, being able to partner and dialogue with your business manager and superintendent and even to understand your home tax bills and assessments. At the end of the program, you will have completed a mini budget and tax levy to illustrate the productivity of the day. ADMINISTRATORS' ACADEMY credit, however, any educator may attend
